Contemporary Hill Country Design  
and Manufacturing*

Do you ever have a vision of how you wish your home could look but don't quite know how to achieve it? I hear this every day. Another good one is when people say, "I'll know it when I see it." No, you won't. You might see a piece of it here and there, but putting it all together is the hard part. That's where I come in and say, "If you can dream it, we can build it." I have been in the furniture business for many years, and for most of my life I have been drawing and designing furniture and interiors that are unique.

Many homes with traditional exteriors are being decorated with more contemporary interiors. The Hill Country contemporary furniture that I designed and built for Prestige Homes is sure to fit that ticket. It was featured in the Greater San Antonio Builder's Association Parade of Homes at Miralomas, a new master-planned community in Boerne. In collaboration with some of my favorite furniture and bedding manufacturers, including my own wood factory, we have created an organic but elegant look blending natural woods, leathers and elegant fabrics, a fitting complement to Prestige Homes' style and attention to detail. Eleanor Rigby Leather did a fantastic job making some of my designs and changing some of theirs to fit my Texas style. Lili Alessandra's owner and I designed fabulous bedding for Hill Country contemporary bedrooms.

Come visit Catrina's Interiors at 32840 IH-10 West in Boerne to see my newest collection of Hill Country contemporary furnishings, or call us to set up a design consultation to achieve the look of your dreams.

*Dawn Hearn Interior Design*

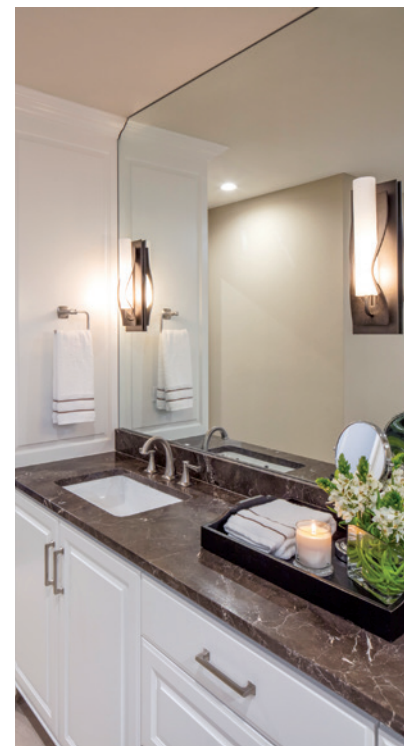

Life is busy. It's a challenge to find time to make all the decisions and selections needed for a new home, renovation, or decorating project. With your tastes in mind, my team and I can assist you in all phases, whether it's providing specifications and material selections, receiving and reviewing bids, or communicating with trades. We work hard to stay ahead of project deadlines so that it can be an enjoyable experience for you and your contractor.

Our goal is to create beautiful, functional spaces that reflect our clients' lifestyles and personalities. Whether you know exactly what you want, or need guidance in making your vision a reality, we will expertly guide you through the process from beginning concepts to the finishing touches.

We are a full-service interior design firm serving Austin, Texas and surrounding areas, and I have been practicing interior design since 1993. I am a licensed interior designer in the state of Texas, a member of the American Society of Interior Designers (ASID), and a member of the National Association of the Remodeling Industry (NARI).

Please visit my website to see a portfolio of recent collaborations with my clients.

"Each and every person has a distinctly unique dream for their space," says interior designer, Jana Valdez, of Haven Design and Construction. "It's my job to play detective and to uncover all the clues that the client shares with me to create a beautifully tailored space. The name of our business evolved from a desire to create each client's personal haven. That's what Haven Design and Construction is all about."

Jana Valdez is an award-winning interior designer who shares her passion for design and construction with her talented contractor husband, Armando Valdez. "Our professions were a natural fit," says Valdez. "After a year of marriage, we knew that the next step was to start a business together, specializing in luxury design and remodeling. Our concept was to provide clients with a combined design and construction team to complete every detail of their project. People have totally embraced the comprehensive design and construction concept and it has really taken off!"

Valdez takes a hands-on approach with each project, from making the design selections to personally designing all custom cabinetry, down to the final details such as placing each piece of cabinetry hardware. "Details are so important," says Valdez, "They can make or break the design." The attention to detail has paid off for this dynamic duo in the form of more than twenty awards for their work over the last two years. Recent awards include the prestigious "Residential - Best in Show" award at the 2018 Texas statewide *American Society of Interior Designers Legacy of Design Awards* in Dallas, and also a 2018 National Remodeling Award at the *National Association of the Remodeling Industry - Contractor of the Year Awards* in Charlotte, NC for kitchen remodeling. "This is just the beginning," says Valdez. "We have so much to be thankful for. It's such a privilege to share our dream with our deserving clients one design at a time."
