# JAMIE *Meares*

While the tastes of Jamie Meares may be constantly evolving, her designs are always eclectic and bold. She effortlessly mixes pattern and color, old and new, patina and charm for designs that are a balance of daring and timeless.

Finding inspiration through her travels, Meares always has new restaurants and hotels on her radar. “NYC is where I’m able to be most creative—there’s an energy there that you can tap right into,” says the designer, store owner, and blogger. “I’m an avid Pinterest user, I find lots of need artists on Instagram, and I also get inspiration from working with my team—I’m a group thinker.”

When approaching a project, Meares draws from her endless supply of ideas she’s been itching to try, while incorporating her client’s tastes, to create a design that is spirited, unique, and functional. “I like rooms with personality, that showcase collections and are conducive to conversation,” explains Meares. You can peek into her creative mind on her blog, *I Suwanee*, or by visiting her shop *furbish.com*.
